## How to use the Winchester Transit Guide

Check the color coded map and route guide on pages 6 and 7 to find the page location for each route's detailed information, including maps and route schedules.

Use the system maps for each route to find the bus route and stop nearest to your location. For Route Guide, System Maps & Timetables Turn to Pages 8-23.

Turn to the specific route pages desired, where you will find maps and timetables for the major stops along the route. There are other stops in addition to the ones shown. To judge the time for your stop, check the timetable for the stops just before and after your stop.

See page 3 for Transfer information. If your destination is not on the same route in which you board, you may need to transfer to another bus. The downtown transfer station located on Boscawen Street is the transfer point.

Buses only stop at designated bus stops. Signs are blue with white lettering. For more information, visit our website at [www.winchesterva.gov/public-transportation](http://www.winchesterva.gov/public-transportation).

## Accessible Service

All Winchester Transit buses and trolleys are wheelchair accessible. Ask your bus driver if you would like the lift lowered. All mobility devices must be secured while traveling. Para-Transit service is available for individuals who have a qualifying disability that prevents them from riding the fixed-route service. Turn to page 24 for details. All information about Para-Transit service and the certification process can be obtained by calling the WinTran office at (540) 662-3982.

## Bike Racks

Winchester Transit provides the best of both biking and busing worlds with free bike racks on the front of all buses. You pay the regular fare and your bike rides FREE! Each bike rack holds two bikes and you can load and unload at most stops. Space is available on a first-come basis. If the bike rack is full, please wait for the next bus. Sorry, bikes are not allowed inside buses.

## Types of Bikes Allowed

Only conventional, single- seat, two wheeled bikes with wheel sizes between 20"-29" and up to a 44" wheel base are allowed. Bikes with over-sized wheels, tandems, and motor powered bikes are not allowed.

NOTE: You are responsible for loading, securing, and removing your bike from the bike rack. To load bike: Squeeze handle and pull down rack, place bike in rack slot, grasp support arm and pull over tire.

However, drivers are required to provide assistance from the vehicle to the first doorway for customers who need additional assistance to complete their trip. Service is origin-to-destination only.

The complimentary Para-Transit service is offered for persons who have disabilities as described in the Americans with Disabilities Act of 1990, as Amended. It is not a senior citizen program or a social service program.
